RECORDER'S OFFICE,
COOK COUNTY, ILLINOIS.

It has become pretty generally known, by this time, to all directly or indirectly interested in city or county real estate, that for nearly two years the Recorder's Office has been prepared to furnish, and has been largely making,

"ABSTRACTS OF TITLE,"

commencing since the great fire of October, 1871, running to date,

**TO ANY AND ALL REAL ESTATE IN
COOK COUNTY.**

That the furnishing of these ABRIDGED COMPILATIONS OF THE EVIDENCE OF OWNERSHIP PROPERLY BELONGS TO THIS OFFICE, where the records upon which they are based, are officially made up and preserved, is now generally conceded, and it has to-day practically, become an accomplished fact in this County for all time to come.

But it seems hardly sufficiently well known to what great and advantageous extent this office has been, and now is, able to furnish, with daily increasing facilities,

**ABSTRACTS ANTE-DATING THE TIME OF THE
GREAT FIRE.**

There have been placed of record and come into possession of this office, since 1872, by the authority of the County Board, for the general availment and benefit of property owners, copies of

**OVER TEN THOUSAND ORIGINAL ANTE-FIRE
ABSTRACTS.**

A large number of these are LETTER-PRESS COPIES, which are justly preferred to any that can now be made up from ante-fire indices. ALL OF THESE ABSTRACTS, ANTE-DATING THE GREAT FIRE, begin with the Government, the Canal or School Trustees, or with an assumption of good title in someone, so that they ARE ALWAYS ACCEPTABLE IN THE MOST CAREFUL BUSINESS CIRCLES. They run in most cases to a late date previous to the fire, and, IN VERY MANY INSTANCES, THEY EXTEND TO A DATE SINCE THAT TIME.

The early portions of ALL OF THESE ABSTRACTS COVER, for a long period of years, large tracts, giving always the early chain and history of the title to ENTIRE ADDITIONS AND SUBDIVISIONS, embracing ten, twenty, aye hundreds of acres of land, now in the best parts of the city.

Of course, in all instances WHERE THESE ABSTRACTS WERE BROUGHT DOWN (before recording them) TO A DATE SINCE THE FIRE, THE CONNECTION WITH THE PRESENT RECORDS IS COMPLETE, and the object for which the recording of Abstracts was resorted to has been reached to the greatest perfection and relief attainable, AS THEY CAN BE CONTINUED AT ANY TIME TO DATE AT THE RECORDER'S OFFICE.

In all cases where these Abstracts (starting with large tracts of land, or numerous lots) do not reach to a day since the great fire, or where parts of this property, owned in smaller tracts and separate lots at this time, *are not* represented in the Abstract *down to the date of its last examination*, the Abstract may be made available as far as this later property *is* represented, and thence it may be continued from the *ante-fire indices* to any day desired.

There are also many Abstracts on record which cover more property and show more matter than need be shown in connection with the property as now owned by parties. In such cases *the Recorder's Office can compile an Abstract* showing a continuous chain of title *to the property as now owned*. *Such Abstract is as reliable as the original Abstract itself* to the entire property shown therein.

All of these documents have been furnished by public spirited citizens, and they are still being collected and recorded with great

care and at considerable expense to the County, *for the sole pecuniary benefit and relief of individual property owners.* There are, also, available in this office, some thirty-three volumes of letter press books filled with valuable CONTINUATIONS to Abstracts, made by the firm of Wilmanns & Padeloup before the fire, which are not included in this list. These records are not, as was sometimes feared, open to the unrestricted and wanton prying of unscrupulous land sharks and dangerous speculators, upon trifling flaws and insignificant clerical imperfections, now and then noted in the Abstracts and originally found in the ante-fire records. They are most carefully guarded under a thorough appreciation and conscientiousness of their great value and importance to property interests. *

They are invaluable records, and wherever the facts stated here are known and understood, officially certified copies of these records are used and received in the making of sales and loans with as much confidence, by business men and capitalists, as the original documents themselves.

In order that interested parties may reap the fullest possible benefit from these records, the following list of Abstracts recorded to date has been officially prepared for free distribution.

Any one at all familiar with our real estate descriptions will readily find his way through the list to the property in which he may be interested.

Further explanation or information may be obtained by application at the

RECORDER'S OFFICE,

83 Madison St., Chicago, Ill.

P. S. All orders by mail or letters of inquiry promptly attended to.

THE FIRST SEMI-ANNUAL REPORT
OF THE
RECORDER OF DEEDS,
TO THE
COUNTY COMMISSIONERS.

THE following Semi-Annual Report of the Recorder was presented to the Board of County Commissioners at the meeting of June 4, 1877:

To the Hon. C. C. P. Holden, Chairman of the Board of County Commissioners of Cook County:

SIR.—In conformity with the provisions of the statutes, the Recorder herewith transmits to your Honorable Board the semi-annual statement of Receipts and Expenditures of his office, from December 4, 1876, to May 31, 1877, inclusive:

Total amount received—		
For recording.....	\$27,301.54	
For certified copies	795.84	
For abstracts.....	5,552.92	
For verbal information, etc	177.05	
For rent.....	150.00	
	—————	\$33,977.35
Total amount expended—		
For salaries.....	30,091.54	
For sundries.....	358.30	
	—————	30,449.84
Total amount on hand.....		\$3,527.51

In submitting this, his first financial report, the Recorder considers it his duty to your Honorable Board to lay before you

a brief resume of the general condition and management of the office under his charge.

It is deemed necessary by him to say first of all, in justice to himself, that the foregoing statement of the salaries paid out of the receipts of this office, include those of all the persons employed under him.

None of his clerks have been paid by the County Treasurer upon pay-rolls made out in and forwarded from this office. The latter was regularly done for the past year under the last administration of the office. It was thus possible, by drawing from \$1,400 to 1,700 monthly, for the late management to have a larger amount of money on hand when making its reports, and yet the fact being that the office was not self-sustaining.

The number of documents filed for record during the last six months does not compare very favorably with the corresponding six months of last year. There were, as shown by the entries of the late incumbent, recorded during that time, 27,016 documents. The number of similar documents filed for the last six months, was only 23,908.

The charges for recording documents have uniformly, for the last six months, been slightly lower, and as strictly in accordance with the provisions of the statutes as it is possible.

The expenditure for salaries during the time covered by the foregoing statement foots up a total of \$30,091.54, which amount includes the compensation paid folio writers. Deducting the amount paid for folio work (for which no definite appropriation can be made, it being piece work), the amount paid for salaries proper is considerably below the amount appropriated by your Honorable Board for that purpose.

The receipts for "verbal information," etc., are very light in the above statement. Charges for information that can be verbally given are but seldom made. The Recorder acts upon the principle that the usefulness and public benefit of the abstract books ought to be made as general as possible, without inter-

fering with the legitimate work and paying business of the office. No charges are therefore made for such information, unless the time taken up in giving it, and the value of the information itself actually warrant it.

The receipts for abstracts made by this office have been most satisfactory, making a total for the past six months of \$5,552.92, whereas the entire receipts of the abstract branch of the office, as shown by the order book, for the whole preceding year were about \$4,500.

The Recorder desires to state here further, without intending, however, personally to cast any reflection upon the previous management of the office, that on taking possession of this office on Dec. 4, 1876, while all record and abstract books, and everything appertaining to them as belonging to this office, were turned over to him, no account or entry books, nor any vouchers, pay-rolls, or other papers showing the receipts or expenditures of the office during previous years, were surrendered to him or found on file.

New books were therefore opened at once, and these have been, and always shall be, subject to the legitimate inspection of your Honorable Board, or to any other properly authorized party.

There are also kept on file in the office, open to the same inspection, all the original pay-rolls; also all bills, vouchers, etc., for the various minor amounts covered by the item of "sundries" in the above statement, necessarily expended and paid out directly at the office in the unembarrassed management of so extensive a branch of the county government. These books and papers will be turned over in due time by the Recorder to his legal successor in office.

All of the requisitions from this office for material, binding, printing, etc., have been, as directed by your Honorable Board, first sent to your committee-rooms for approval. The contractors upon whom these orders or requisitions were drawn have been instructed by the Recorder to send all bills, accompanied

by the respective orders, to this office for the purpose of checking them off before laying them before your Honorable Board for payment, so as to assure you that all work or material charged for in them has been received at this office.

The Recorder may now be pardoned for alluding here in general terms, but with special gratification, to certain work done in his office, which has grown materially in importance and extent since his connection with it. It is the making of ABSTRACTS OF TITLE which is here referred to.

The making of these by the Recorder was thought at first, by many, a very bold, and by some few, even a dangerous innovation. It was an innovation, it is true, upon what may be termed peculiarly local notions of furnishing evidence of ownership to realty. If a bold one, time has certainly shown that it was not a dangerous one. On the contrary, its general success, the continued increase of orders at this office for the past five months for abstracts under the seal of the Recorder, is the best proof of their value, and of the favor with which these abstracts are now received and made use of by attorneys, loan and real estate brokers, and the people at large. None of the frightful predictions of the few short-sighted alarmists, opposed to the innovation have been realized. All the advantages foretold by those favoring it have been fully verified.

All doubts as to the practicability and safety of the furnishing of this information by the public officer in charge of the records upon which this information must always be based, have been thoroughly cleared away. It is no longer an experiment, it is an accomplished fact; and that for all time to come. Individual private business interests have been compelled to give way to the general property interests.

This is as it should be.

In connection with this subject the Recorder also desires to direct your attention officially to the lists in pamphlet form, prepared for free distribution by him with your approval, of all recorded ante-fire abstracts, and such others as are contained in the letter-press books in possession of this office. The preface,

which speaks for itself, published with this official list, is attached hereto and made a part of this report.

And now a few words regarding the entire work done in the office, and particularly the abstract work. All of it is most carefully done. The greatest precautions are taken in the writing of the regular records. Many valuable improvements, taught by good judgment and experience, have been and are constantly being made in the posting of the tract indices and all other books by means of which abstracts are compiled. The same is the case in the details of the work of making up the abstracts themselves.

Your Honorable Board and the public at large may be truthfully assured that the information contained in the official abstract books is, and that the abstracts made by means of them are, equally reliable with others made by outsiders—nay, more; the fact is, the present posting of new items into the indices and other abstract books, and all the work connected with the making of abstracts, is to-day in this office more conveniently and safely arranged and more perfectly systematized in conformity with the business demands than it is possible to do it in any outside private establishment. This is possible in this office because of the first legitimate and unrestricted access by the Recorder to all documents and records.

The fact is referred to with some pride that, notwithstanding the large increase in the work of making abstracts in his office, by the strictest discipline among and surveillance over his employes, and by the closest utilization of their fullest office-time, without regard to their various lines of employment, the Recorder has thus far been enabled to keep up the whole of the office-work promptly, without increasing his regular clerical force.

It is but just and due to the large number of employes for the Recorder to say, in their behalf, that they are all experienced and competent, active, prompt and faithful in the discharge of their various public duties; that they are uniformly courteous on all occasions in their official intercourse with the people doing

business in the office, and are therefore a credit to the public service and deserving of the good-will of the tax payers whom they serve.

Before closing this report the Recorder wishes herewith to give expression to his appreciation of the early and honorable adjustment of the differences of opinion that arose between some members of your Honorable Board and himself touching certain appointments in his office: also his gratification at the readiness always shown in giving your acquiescence or good judgment in all suggestions coming from him and tending toward the interests of the office and its public business.

Respectfully submitted.
